

The perfect solution for laboratory powder coating applications is the COLO-opti-T-H (Lab unit) – designed for short runs

**COLO-opti-T-H**

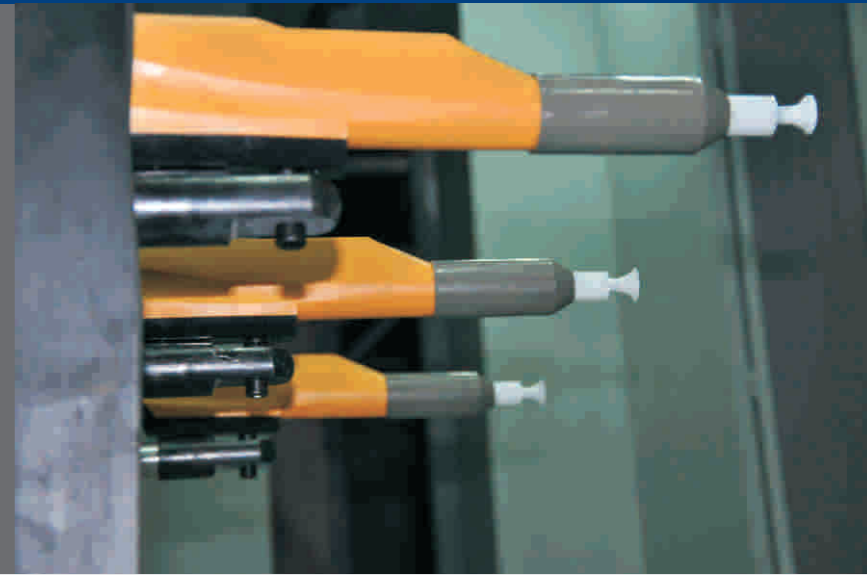

**For tests at powder manufacturers' premises**

The self fluidizing application cup with 500ml volume enables a perfect processing for 50–250gr, 3.5–14oz of powder

**COLO-800D-T-06C**

**Batching management  
Maximum safety**

**NEW**

**COLO-131S**

**COLO-800D-L2**

**FLEXIBLE  
ERGONOMIC  
ECONOMICAL  
PRECISE  
MODERN  
COLO-131S-F**

**COLO-5000-PGC1**

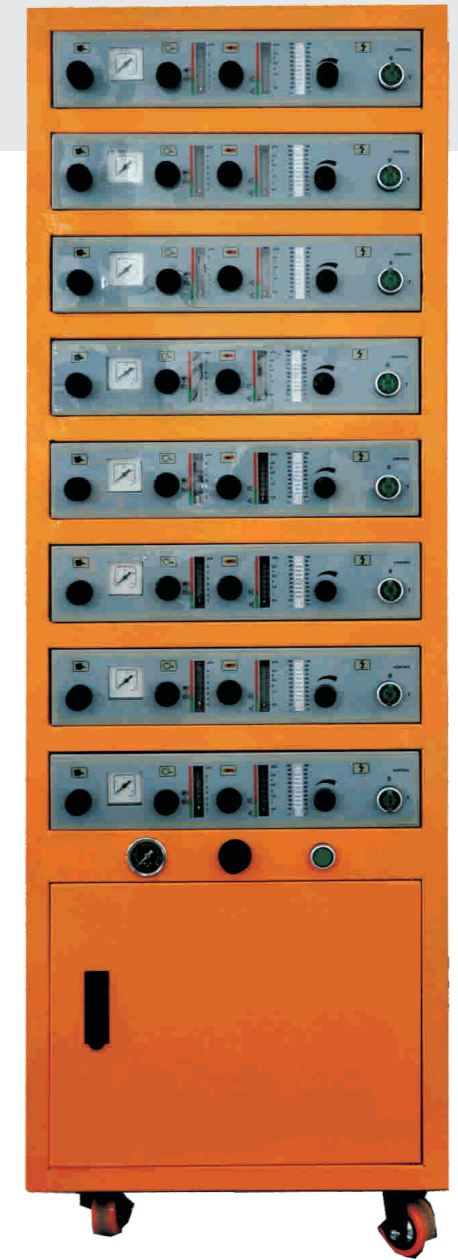

COLO provides coating performance, easy of cleaning, simplicity, to allow you to increase your productivity and color changes even faster!

**COLO-PGC1-opti-Auto**  
Simple, durable, cost-effective

**COLO-opti-auto**  
Advanced, efficient and intelligent

**Immersion tank pretreatment system**

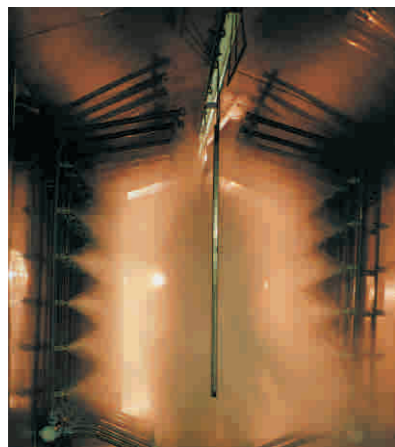

**In-line dip washer with conveyORIZED system**

**Tunnel spraying system**

For a high demand of efficiency and automation, these economical tanks can be replaced by vertical shower type

**COLO Fast Color Change System**
